## EU – Taiwan Matchmaking Event

In the context of Taiwan Expo 2024 in  
Europe

10-12 June 2024

Berlin, Germany

## OBJECTIVES

The European Commission (EC) will organise the EU – Taiwan Matchmaking Event in the context of Taiwan Expo 2024 in Europe which will be held on 10-12 June 2024.

The **EU – Taiwan Matchmaking Event** itself will take place on-site in Berlin, Germany on 10-12 June 2024 with a delegation of about 80 companies and trade organisations from Taiwan.

The event will be jointly organised by the European Commission through the European Cluster Collaboration Platform (ECCP), in collaboration with the Taiwan External Trade Development Council (TAITRA) and European Enterprise Network (EEN).

The **EU – Taiwan Matchmaking Event** will bring together cluster organisations and SMEs from the European Union (EU), non-EU countries participating in the Single Market Programme/COSME Strand<sup>1</sup>, and Taiwan. It will provide participants an excellent chance to promote Cluster to Cluster (C2C), Cluster to Business (C2B), and Business to Business (B2B) collaborations. The event will be held on-site at Taiwan Expo in Europe, in Berlin, Germany.

The overall objective of the event is to promote information exchange and networking opportunities for European cluster organisations and their members with counterparts from Taiwan, particularly in the fields of ICT, Semiconductors and Digital industries, AI, IoT, Advanced manufacturing, Smart Mobility, Green and Circular Economy, Renewable Energy, Sustainability, Smart Healthcare, Smart city, Connectivity and 5G.

The objectives for the participants include:

- Strengthening EU-Taiwan cluster cooperation for the benefit of their members, including through a seminar, a cluster matchmaking event, and visits;
- Identifying potential areas of common interest for cooperation and synergies, in terms of the sectoral, value chain, and market focus of their SMEs and other companies;
- Through clusters, improving EU-Taiwan industry and academia-industry collaboration in research, development, and innovation. For its members, the clusters will identify possible areas of RDI collaboration (academia, research organisations, industries...).

This call for expressions of interest is being launched to identify a European delegation made up of representatives from cluster organisations from various industry sectors ([please see section “Who can participate” below](#)) who are willing and committed to participate in an EU – Taiwan Matchmaking Event in the context of Taiwan Expo 2024 in Europe.

Cluster organisations and business network organisations that apply to this call must be willing and committed to engage in the EU-Taiwan Matchmaking Event's activities. **By submitting an expression of interest in response to this call, you are indicating your acceptance of the call's terms.**

Further details about the event, the eligibility requirements, and how to submit an expression of interest can be found below.

The events are currently funded under the EU Single Market Programme (SMP)/COSME Strand. As the cornerstone of the European strategy in support of SMEs' internationalisation through clusters, the ECCP provides a wide range of information and services to facilitate the interaction between clusters not only within Europe, but also with international partners.

- **Preparatory Webinar** – an opportunity to receive information on aims and objectives of Taiwan Expo in Europe and guidance on how to participate successfully in the planned event. *(date tbc)*
- **Technical Webinar** – a session helping future participants of the matchmaking event to make the most of their profiling in B2Match and explain the procedures to optimise the booking of meetings. *(date tbc)*

## PARTICIPATION CRITERIA

### ELIGIBILITY CRITERIA

To be eligible:

- The cluster or business network organisation must be registered in the **European Cluster Collaboration Platform** (ECCP) ([www.clustercollaboration.eu](http://www.clustercollaboration.eu)) (or have requested to be registered until one week prior to the Call for EOI<sup>2</sup>) **with a complete profile** (a link to the complete cluster profile of each applicant (registered) on the ECCP should be provided through the application: <https://ec.europa.eu/eusurvey/runner/ClustersCallforExpressionofInterestEUTaiwanMMEBerlin>)
- The cluster or business network organisation must be engaged in providing or channelling cluster or network support services to SMEs and certify that it meets the description of 'innovation clusters' in the Annex I of the "EU Framework for State Aid for Research, Development, and Innovation"<sup>3</sup>; and
- The cluster or business network organisation must be a legal entity established in a European Union Member State or other country participating in the Single Market Programme/COSME Strand (see the list of non-EU participants [here](#))

### SELECTION CRITERIA

Applications will be evaluated qualitatively using the following selection criteria:

- Cluster activity in the target sectors;
- The potential to maximise matchmaking and collaboration prospects via participation in this mission, as shown by a detailed explanation of the sort of partnership sought by the applicant and the likelihood of developing practical cooperation as a result of the event. This declaration of interest in cooperating must be concisely stated in the questions in the application form.

---

<sup>2</sup> Deadline: 25 April 2024, 23:59 Brussels time.

<sup>3</sup> for more information, please follow the link:

[http://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:52014XC0627\(01\)&from=EN](http://eur-lex.europa.eu/legal-content/EN/TXT/PDF/?uri=CELEX:52014XC0627(01)&from=EN)

- The desire and capacity to collaborate more closely with other Taiwanese cluster and network organisations in order to better support SMEs, larger firms, and research actors in global competitiveness via collaborative efforts, as well as to assist them in initiating new projects.
- Clusters operating beyond the stated fields should extensively motivate the argument for their application to a reserve list that will be determined in due time.

The selection of applications will be based on the afore mentioned criteria and information provided in the application form; in cases of equal merit, the balanced geographical and sector coverage of the EU and SMP/COSME Strand participating countries will be considered. Furthermore, in cases of equal merit, organisations participating for the first time at the ECCP matchmaking event will have priority. Moreover, priority will be given to those organisations that have previously **not unjustifiably** cancelled the participation to matchmaking events organised by the ECCP.

**By 13 May 2024 at the latest**, selected clusters (in the first cut-off) must explicitly reconfirm the intent to participate to the event and **by 22 May 2024 at the latest** confirm that the flight or train ticket for the purpose of participating at the event has already been bought. In case the confirmations are not received by the indicated dates, the organisers reserve the right to exclude the selected organisation(s) from the European delegation and invite the organisation(s) on the reserve list instead. The confirmation dates for selected clusters from the reserve list and/or in the second cut-off will be communicated to those concerned in due time.

The organisers reserve the right to ask for additional information from the applicants, if necessary.

**Attendance at the seminar, the matchmaking event, the debriefing session, and the site visits are all compulsory.**

**Cluster and Business Network Organisations selected to participate in the Event must send a commitment e-mail agreeing to attend the preparation webinar, the on-site seminar, conduct at least four meetings, attend the on-site visits and engage in the final 30-minute debriefing session.**
