CEBRSpace November

Cluster proposals submitted, member calendar, internationalisation, biomarker programme and self-financing for cluster managers

 What a busy autumn so far – members have been working hard on the first of several cluster proposal opportunities, with the **Cluster Excellence Programme** deadline on October 29. Well done all those clusters that were part of proposals and best of luck in the evaluation. Any members involved in successful proposals can use CEBR as a dissemination and project exploitation so that all clusters in Europe can share the benefits of your work or contribute to project delivery. We have time for a quick recovery before members target the next deadlines due in 2015.

Internationalisation Special Interest Group

This is a busy SIG, with work through to summer 2015. Key meetings include:

- Webinar - [Introduction to Teijin Pharma](#): November 20. A webinar introduction to our new Associate member which wishes to network with specific medical device SMEs through cluster managers. This gives CEBR the opportunity to profile member SME medical device profiles and for launch an online directory for greater critical mass and international profile. Members are invited to take part to meet Teijin Pharma and kick start the design of a medical device SME programme
- Workshop - [Global Cluster Biomarker programme](#): November 25, Munich as part of the 4th Munich Biomarker Conference. CEBR will host a workshop focussing on biomarker funding for SMEs – your biomarker SMEs should be there
- Webinar - [Global Cluster Biomarker programme. 2015 biomarker programme planning](#): December 4. CEBR members are invited to help plan the biomarker programme for 2015, including its next international showcase.

Cluster management Special Interest Group

The topic for this SIG over the next year is that of **self financing for cluster managers**. A critical topic for many clusters and one where shared good practice and recommendations will support clusters across Europe.

- Webinar - [Self-financing for cluster managers](#): December 10. This webinar will look at how cluster managers should plan for independent revenue streams, protecting their cluster management mission and avoiding commercial conflicts of interest.

Member calendar

Follow CEBR member opportunities each month

- November 3: BioXclusters project [EU-Japan Cluster Matchmaking Event](#) at Bio Europe in Frankfurt. 4 leading Japanese clusters and the Japan Bioindustry Association (JBA) will showcase the opportunities for EU clusters and companies
- November 25-26: BioM. [4th Munich Biomarker Conference](#). This meeting covers all stages of biomarker development and has a focus on the translation of academic research findings into industry-driven drug development plus individualised treatment in the standard of care
- December 4: Mediawales (UK) [Life Science Industry Conference, Cardiff](#). 1 day event with over 300 attendees and agenda including Regulatory Update, Open Innovation and big data, Personalised medicine and companion diagnostics, Regenerative medicine and wound healing.
- December 9: One Nucleus (UK) [Genesis Conference, London](#). In addition to a full B2B meeting, there is a dedicated hub for delegates to Source International Opportunities, with CEBR members uniquely able to get the following: A4 literature on the Source International Opportunities hub, Pre-event promotion as part of the Source Lounge, Full delegate pass with access to all sessions, materials, refreshments and the online 1-2-1 partnering facility, Web site signage as a supporter of the conference, A 40% discounted delegate rate of £19 for any attending companies from their cluster.

Dear ECCP User,

The European Cluster Conference in Brussels and the Cluster Matchmaking Event in China took place in October 2014. We would like to provide you the post-reportings of the events. There are other interesting events open right now for clusters interested in entering new markets or creating partnerships and networks across borders and sectors. We compiled a selection of events for you in this newsletter.

For more information and news check out www.clustercollaboration.eu

Best regards,
Your ECCP Team

Creating Business Opportunities in China through a Mission for Growth in Chengdu

From the 21st to 24th of October 2014, a Cluster Matchmaking Event was organised in the scope of the "Mission for Growth" to Chengdu (China) This Event offered a chance for European Clusters to develop collaborations with participating clusters from China; thus, creating greater possibilities for SMEs to grow through opportunities such as access to new markets or to new products and services.

The EU Cluster Matchmaking Event was composed of 15 representatives from cluster organisations that were willing and committed to participate in a cluster matchmaking event to Chengdu (China) in the fields of:

- Bio-chemicals
- Bio-pharmacy & bio-technology
- Environmental protection
- ICT
- Renewable energy

You can find more information on the Event on clustercollaboration.eu.

A step toward a new European Cluster Strategy for Growth

The fourth European Cluster Conference, organised by the European Commission's Directorate General for Enterprise and Industry, addressed the role of clusters in support of SME growth, industrial renewal and regional structural change and competitiveness. It gathered over 340 cluster stakeholders from across Europe consisting of key policy makers from national and regional authorities, practitioners and high-level speakers from academia and industry. Conference participants discussed the latest trends and challenges for modern cluster policies and worked together to identify priority areas for a new European Cluster Strategy for Growth.

For more information and news check out www.clustercollaboration.eu. You will also find detailed information [here](#).

bioXclusters: Make use of this great possibility to learn about the strenghts of Japanese life science landscapes and clusters in the health care sector

The EU-Japan Cluster Matchmaking Event – financially supported by the European Commission (<http://www.clustercollaboration.eu/>) – is taking place at Bio Europe in Frankfurt (Germany) on November, 3rd. It provides the perfect opportunity to gain an overview of the strengths of the Japanese life sciences landscapes and clusters in the health care sector.

Join the "Bridging the Regions in Europe" Conference!

Worldwide, the proportion of people aged 60 and over is growing faster than any other age group: this demographic change represents. Innovative, IT-supported solutions were sought for within the SEE_Innova partnership in order to find solution for a sensitive problem: keeping elderly people in their homes as long as possible and support their active ambient living with new technological tools. What has been reached? Come and find out at the two-day conference in Budapest.

Detailed information find [here](#).

[^ top](#)

Cluster Excellence Management Training

The European Foundation for Cluster Excellence has launched its 2015 training programmes; The Essence of Cluster Excellence Management and Gold Cluster Excellence Manager. With the support of the European Commission, these programmes address the need for a more streamlined training format in addressing the training needs of cluster managers. Both programmes push for further creativity, innovation and growth in economic clusters.

EU-JAPAN CLUSTER MATCHMAKING EVEN AT BIOEUROPE

Venerdì 12 Settembre 2014 12:59

The **EU-Japan Cluster Matchmaking Event** – financially supported by the European Commission (<http://www.clustercollaboration.eu>) – is taking place at Bio Europe in Frankfurt (Germany) on **November 3rd, 2014**.

It provides the perfect opportunity to gain an overview of the strengths of the Japanese life sciences landscapes and clusters in the health care sector.

Speakers from four leading Japanese life science clusters and from Japan Bioindustry Association (JBA) will present the vast array of opportunities that the Japanese pharma and health market offers to European companies.

If you work for a European life science cluster or if you are a manager of a company that targets the Japanese market, do not miss the opportunity to establish valuable contacts at this event.

It creates the basis for cluster cooperations, R&D projects, licensing opportunities, attracting joint partnerships, developing small scale, high value manufacturing projects, developing commercial activities and establishing your presence in the Japanese market by using soft landing facilities.

The number of one-to-one partnering meetings at BIO-Europe 2014 is expected to beat the record set in 2013. - © EBD Group

Twenty-two Catalan companies to participate in BIO-Europe Frankfurt

At the congress there will be an EU-Japan partnering event organized by BioXclusters, an alliance of which Biocat is a member

(<http://www.addthis.com/bookmark.php?v=250&username=xa-4b699392151c15f0>)
15.10.2014 | 0 comments (#comentari)

The twentieth edition of [BIO-Europe](http://www.ebdgroup.com/bioeurope/index.php) (<http://www.ebdgroup.com/bioeurope/index.php>), one of the largest European partnering congresses for the biotechnology and pharmaceutical arena, will be held from **3 to 5 November in Frankfurt** (Germany). 22 Catalan companies will travel to the fair, similar to the number that participated in the 2013 congress in Vienna.

The organizers of the congress, [EBD Group](http://www.ebdgroup.com) (<http://www.ebdgroup.com>), expect the number of one-to-one partnering meetings held this year to **beat the all-time record set in 2013**. BIO-Europe 2013 hosted 184 company presentations and more than 3,200 delegates from 1,814 companies representing 56 different countries.

You can follow BIO-Europe 2014 on Twitter with the hashtag [#BEU12](https://twitter.com/search?q=%23BEU12&src=typd) (<https://twitter.com/search?q=%23BEU12&src=typd>) or online in the [Life Science Partnering discussion forum](http://cts.businesswire.com/ct/CT?id=smartlink&url=http%3A%2F%2Fbit.ly%2F1pGsdZ&esheet=50958393&newsitemid=20141008006132&lan=en-US&anchor=Life+Science+Partnering+discussion+forum&index=6&md5=c797baff1f1fb210f87d5658e2c2ba385) (<http://cts.businesswire.com/ct/CT?id=smartlink&url=http%3A%2F%2Fbit.ly%2F1pGsdZ&esheet=50958393&newsitemid=20141008006132&lan=en-US&anchor=Life+Science+Partnering+discussion+forum&index=6&md5=c797baff1f1fb210f87d5658e2c2ba385>).

EU-Japan Cluster Matchmaking Event

Under the framework of the BIO-Europe fair, a partnering event between Europe and Japan will be held on **3 November**. The [EU-Japan Cluster Matchmaking Event](http://bioclusters.eu/2014/09/12/eu-japan-cluster-matchmaking-event-at-bioeurope-3rd-november-2014/) (<http://bioclusters.eu/2014/09/12/eu-japan-cluster-matchmaking-event-at-bioeurope-3rd-november-2014/>) has received financial support from the European Commission and is being organized by the [BioXclusters](http://bioclusters.eu) (<http://bioclusters.eu>) alliance. **Biocat**, as a BioXclusters partner, is helping organize the event along with clusters [BioM Biotech Cluster Development](http://www.biom.org) (<http://www.biom.org>) (Germany), [bioPmed](http://www.biopmed.eu) (<http://www.biopmed.eu>) (Italy) and [Lyonbiopole](http://www.lyonbiopole.com) (<http://www.lyonbiopole.com>) (France).

This matchmaking event offers participants an overview of the strengths and current status of Japanese life sciences groups from the healthcare sector, as well as laying the groundwork for future collaborations, R&D projects or commercial activities in the Japanese market.

At the event, clusters [Metropolitan Bionetwork](http://www.jba.or.jp/syutokenbio/en/) (<http://www.jba.or.jp/syutokenbio/en/>) (Tokyo), [Yokohama-Kanagawa Bio-Business network](https://www.yk-bio.net/en/) (<https://www.yk-bio.net/en/>) (Kanagawa), [Protein Mall Kansai](http://www.osaka-bio.jp/en/) (<http://www.osaka-bio.jp/en/>) (Osaki), [Fukuoka BioCluster Project](http://www.biocat.cat/sites/default/files/Fukuoka_BioValley_Project.pdf) (http://www.biocat.cat/sites/default/files/Fukuoka_BioValley_Project.pdf) (Fukuoka) – the four main Japanese life sciences cluster groups – and the [Japan Bioindustry Association](http://www.jba.or.jp/pc/en/) (<http://www.jba.or.jp/pc/en/>) (JBA), will present a wide range of opportunities available for European companies in the Japanese pharmaceutical and healthcare market.

On a related note, the registration period is now open for those interested in giving a company presentation at [BIO-Europe Spring 2015](http://www.ebdgroup.com/bes/index.php) (<http://www.ebdgroup.com/bes/index.php>), which will be held in Paris from 9 to 11 March. The deadline to submit [applications](http://www.ebdgroup.com/bes/presenters/index.php) (<http://www.ebdgroup.com/bes/presenters/index.php>) is **28 November 2014**.
