About Congress

1st Visegrad Clusters Congress is the second meeting of cluster organizations of the V4 in terms of a project Clusters in the Visegrad Group Challenges of the Future executed by the Polish Clusters Employers' Association and Partners from V4. It's supported by the International Visegrád Fund with its headquarters in Bratislava.

Congress intend to face the problems related to the functioning of clusters in the V4 region. We create a **space for exchanging experiences, solving problems, and creating a network** of people engaged in the **activity of clusters** in the countries of the Visegrád Group (V4).

Cooperation between entities from the V4 region and the Industry 4.0 revolution will be key subject. It's a chance for the reindustrialisation of Europe, in particular attractive and possible to implement for economies of countries that base industrial development on new ICT technologies, automation, robotization and ecology requirements.
