Innovatieve Coatings

## Samen voor sterk innoveren

### Company visit @ Europlasma

Date: 21 March 2017 - 14:00

Venue: Europlasma - De Bruwaan 15 - 9700 Oudenaarde

We kindly invite you to a company visit to Europlasma on March 21, 2017.

Europlasma is the global leader in nano-coating (ultra-thin coating) solutions based on low-pressure plasma technology. Europlasma develops proprietary plasma processes, designs and builds low-pressure plasma treatment equipment.

The technology can be applied in a variety of application areas such as:

- AUTOMOTIVE** anti-fogging effect, adhesion pretreatment
- ELECTRONICS** water- & sweat-proofing
- TEXTILES** hydro- & oleophobic treatment (e.g. Hopla project)
- SPORTS** protection of electronic devices against liquids (rain and sweat)
- FOOTWEAR** rain and mud repellency

Europlasma obtained different international awards for its technology: ITMA award, ISPO Award and the CES Las Vegas Award.

### Programme

- 14:00** welcome
- 14:30** introduction Cluster Innovatieve Coatings
- 14:45** advantages and applications with nano-coating solutions based on low-pressure plasma coatings: PlasmaGuard® en Nanofics®
- 15:15** visit of Europlasma Pilot Facilities and Production
- 16:00** network drink

Members of the Innovatieve Coatings cluster can register free of charge. The event is also accessible to non-members against a participation fee of 150 euro.

If you would like to discover the possibilities of this LOW IMPACT TECHNOLOGY, please register at your earliest convenience on [www.centexbel.be/nl/agenda/bedrijfsbezoek-europlasma](http://www.centexbel.be/nl/agenda/bedrijfsbezoek-europlasma), since the number of participants is restricted. Priority will be given to cluster members.
