

METASTARS

Call for Innovation Services

The **METASTARS consortium** is pleased to announce the results of the call for innovative services organised by the European METASTARS project.

The METASTARS project, coordinated by Aerospace Valley, aims to **support SMEs in the Aerospace and Defence (ASD) sector** to increase their resilience, facilitate their adaptation to the digital and environmental transition, become more innovative and expand internationally.

Aimed at European SMEs, the **METASTARS call for services** awarded financial support to 36 SMEs to benefit from external services that will enable them to innovate in one of the following areas: digitalisation, cybersecurity, green transition, skills development and internationalisation towards Japan and Canada.

This call for projects, which has been open continuously since 01 March 2023, closed on 15 November after the available budget had been allocated.

Out of a total of 59 applications submitted, discover the list of the **36 winning European SMEs of this call**:
