

# MedBAN funded SMEs

## 1. About the project

**MedBAN – Mediterranean Blue Acceleration Network** mobilized the EU blue economy SMEs to adopt processes and technologies for a greener, more digital and more resilient economy. It managed two open call schemes to fund a set of services for SMEs on innovation, training, twin transformation and internationalisation issues. In order to do so, **MedBAN** deployed **two** simultaneous but separate **open calls for EU Blue Economy SMEs**. These open calls awarded financial support that funded two different sets of services: one for **innovation, training and twin transformation of businesses (ITTT)** and one for **internationalization (INT)** actions.

Sept 2022 – Oct 2024

7 partners

Total budget: 1,4 M€

The project consortium comprises six cluster organisations, and funded several Small-Medium Enterprises from different countries and related to the Blue Economy:

### France
