EAV

Elena Alamar
International Consultant, Business Coach for EIC Accelerator/SMEI & BlueInvest
EU Evaluator
C/ Dolores Marqués 33, Esc. 3, Pta. 3 - 46020 - Valencia
Tel.: +34 650309549
SKYPE: elenaa718
Linkedin: <https://es.linkedin.com/pub/elena-alar-velázquez>

I work Business Consultancy and in Business Innovation EC Coach, as well as in EU Evaluation programs.

Since 2005, as a Business Development Consultant, my main expertise is in international consultancy, exports/imports, international market implementation, business development, marketing, legal contracting & innovation, among others.

Since 2014, I am an EC Coach in Business Innovation Development under the main relevant European funding programs: EIC Accelerator/EISMEA (I was certified by the EC as Business Innovation Coach on the first panel board of Expert Coaches in year 2014 under SME-Instrument H2020), EUDIS Coaching program, Blue Invest Readiness Assistance, LCBA, INNORATE, GALACTICA, ... & an EU Evaluator, since 2016, for several European funding programs (EUREKA/EUROSTARS, INNOWIDE, IFD, COST, FET, IRIS-RIF, ONTOCHAIN, RIMA, GALACTICA,...).

Before this, I worked for several large and SMEs as Export Manager and/or CEO always involved in international markets and upscaling.

More than 30-years of multi-sectorial experience supporting business development activities for the sme's in the field of internationalization, marketing research, R&D innovation, international markets, entrepreneurship, sustainability and greening of production modes and CSR strategies, Exports & Imports, International Management, Business Development and markets implementation, etc. As a Business Coach, I try to understand the context of the company and empower the sme's management for handling similar challenges in the future on their own. Based on this philosophy, I manage and support to the companies on Business Development: focusing on the identification, analysis and evaluation of potential business opportunities, funding and investment location, the definition of business segments and the development of an effective marketing mix; on Organization: aimed at mobilizing the resources of the smes to ensure the efficiency and performance of the company's organization; and, finally, on Cooperation, supporting smes in planning and implementing innovation partnerships and project consortia.

ENVIRONMENTAL IMPACTS ACADEMY

Environmental Impacts Academy teaches people to do Environmental Life Cycle Assessment (LCA).

LCA is not rocket science but it is a bit difficult, and it is important that you know what you are doing.

Our Hands-on LCA training and support program is made by world leading LCA experts. It starts with LCA education and then continues with each student conducting a real life LCA for something that their business needs an LCA for. More information is available on our web page www.environmentalacademy.org under Products and Prices.
