The single signed evaluations of Steering Committee members are archived as project data, available for consultation upon request.

As per the final scores 11 out of 12 are accepted and eligible for funding as they comply with the criteria verification made by the Partnership. The consortium approves the decision to support 11 participants instead of the 10 foreseen in the public call for EOIs. Hence the participation of the 11 eligible applicants to the mission to Mexico is approved, as well as the related provision of technical and financial support.
