

Connecting top start-ups with investors  
in biotech, medtech, and digital health

Every year, the Catapult accelerates 42 start-ups, showcasing the best business concepts from medtech, biotech and digital health to leading experts and investors.

Our programme offers intensive training and fierce competition. Catapult gives start-ups the support they need to be investment-ready and succeed.

## The Process

### Regional Selections

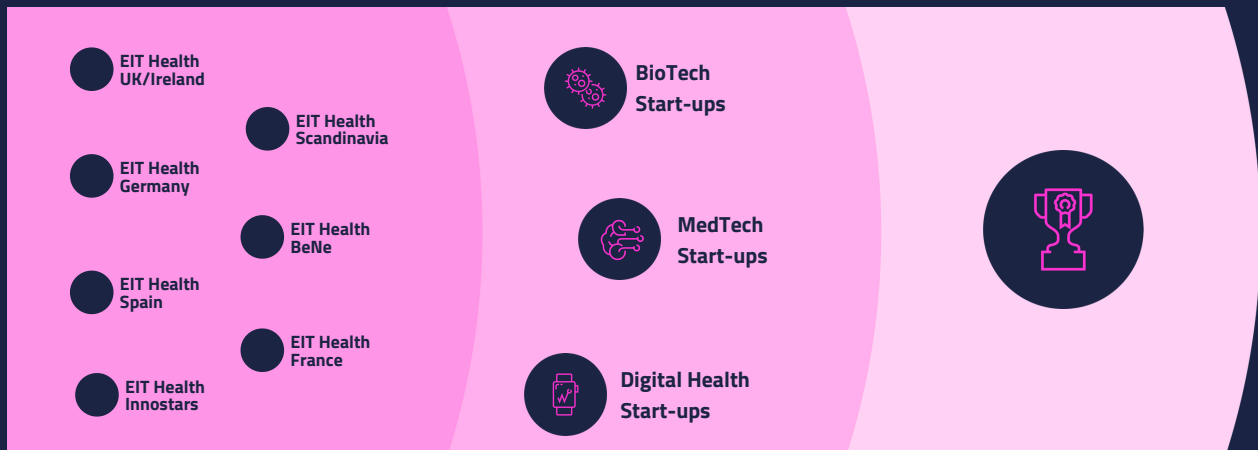

Companies apply through EIT Health's seven regional offices. 42 start-ups are selected for intensive training and help with business planning and pitching.

### Semi finals

Semi-finalists in each category are paired with mentors and pitch a jury for the chance to be one of 21 finalists.

### European Final

After pitching in front of 500 industry experts, stakeholders, and investors, the top three start-ups in each category win a cash prize.

## Eligibility

### To apply, start-ups must:

- Have fewer than 50 employees
- Have an innovative business concept in medtech, biotech or digital health
- Be incorporated and operating in an EU country
- Be looking for seed or series A funding of at least € 500K
- Have a self-valuation of at least € 1M
- Have collected at least € 500K funding (private or public) or had at least € 500K in revenue last year

## Benefits for Start-ups

### 360° TRAINING

Optimize your business plan and master pitching

### VISIBILITY
