

European and national funding for sports innovation projects

In the framework of the EU4SportsClusters Alliance project, Cluster Montagne organized the 16th of November 2016, a training session on European funding. As sport innovation projects could involve different sectors as tourism, health or new technology industries, the training session has been organized with the collaboration of four other cluster and competitiveness poles : IMAGINOVE, MINALOGIC, OSV and SPORALTEC.

1

Target and audience

This workshop was intended for SME, ETI, research centers and universities that wants to develop innovation projects in the sport with funding from various public sources, from the European Union and / or national and regional authorities. 11 structures were present.
