Level *Up*

LEVEraging knowLedge

of training providers in **UPskilling** and reskilling of SMEs' managers and employees towards empowering their digital transformation.

levelup-skills.eu

Co-funded by
the European Union

ABOUT THE PROJECT

Level Up aims to empower the labor force of European SMEs in digital competencies, through the development and provision of short-term training courses focusing on the following *key capacity* areas: Cybersecurity, Data Literacy, Data Analytics, Artificial Intelligence, microelectronics / microcontrollers, Internet of Things, 3D printing and 3D modelling, cloud and programming.

PROJECT OBJECTIVES

The Level Up project will offer a comprehensive range of *over* 100 high-quality and industry-focused training courses, catering to the *specific needs* of SMEs aiming to empower the labor force of European SMEs with digital competencies. These courses will be made available to an estimated 15,000 participants from 3,000 SMEs throughout the lifespan of the project.

RESULTS

The consortium will create and deliver a *new* pool of training courses on the basis of the expertise knowledge and experience of the consortium training providers and account on the actual needs of the labor workforce. The training courses will be *customised* in order to be relevant to different industry sectors, including the healthcare sector, finance, insurance, but also, agriculture-food, agritech, energy, manufacturing and telecommunications sector.

In Level Up the training courses will be created and delivered gradually and through the development of the following items:
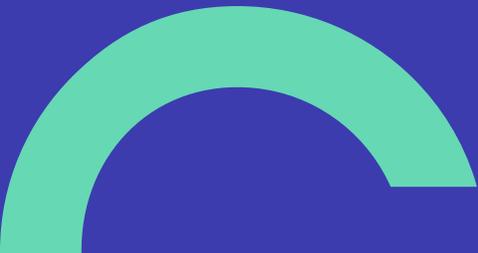

1. Report on labour market need of emerging advanced digital skills

2. Portfolio of core digital skills in key capacity areas

3. Curriculum & detailed design of training material

4. Development of Training courses content

5. Implementation of courses

"It is expected that more than 100 training courses will be created and also listed on the Digital Skills and Jobs Platform from the Level Up consortium, reaching out to an estimated number of 15000 participants from 3000 SMEs during the lifespan of the project."

TARGET GROUP

The target group of Level Up is:

Business' leaders or managers with a special focus on SMEs and SME employees. Also, Job seekers from all labor market and industrial sectors, who are interested in upskilling and reskilling in key capacity areas in terms of digital skills, namely, Data, AI, Cybersecurity, IoT, Cloud and Software/ Programming and 3D printing. Most of the training courses will be applicable to all sectors and professions, but certain courses will be dedicated to specific sectors, such as the healthcare, Agrotech, Finance and ICT.
