including 180 SMEs

326 R&D projects
representing a budget of
€1,395 million

50% of R&D projects
selected for funding

More than
100 technology
experts

DEVELOP YOUR COMPETITIVE EDGE WITH MOV'EO!

Set up in 2006, the MOV'EO competitiveness cluster brings together France's leading **players in mobility** to develop **collaborative R&D projects**.

MOV'EO is:

- A centre for scientific excellence
- A dynamic industrial network
- A powerful, efficient ecosystem

Imagining the future of mobility together

Mobility specialists face many **scientific and technical challenges** as they strive to imagine the future of mobility. Actively involved in building momentum in this field, MOV'EO focuses on **six key areas of R&D** that offer a promising future.

INTELLIGENT MOBILITY
SOLUTIONS

VEHICLES'
ENVIRONMENTAL
FOOTPRINT

COMBUSTION ENGINE
POWERTRAINS

ROAD USER
SAFETY

MECHATRONIC
SYSTEMS FOR VEHICLE
ELECTRIFICATION

DEMONSTRATORS
AND ENERGY STORAGE
SYSTEMS

A UNIQUE NETWORK OF PARTNERS

MOV'EO is one of the most diverse French communities of companies developing innovative mobility products and services. Its partners include major manufacturing companies, cutting-edge SMEs, prestigious research centres, local and regional players, innovation ecosystem stakeholders, and European networks.

ENHANCED ACCESS TO FUNDING

MOV'EO seeks to make it easier to obtain public and private co-funding through its accreditation system – the MOV'EO label and the ICE “Innovative Cluster Enterprises” label. One in two MOV'EO-accredited projects is awarded public funding.

 MOV'EO plays a particularly important role in helping its members to receive European funding.

Support tailored to **your** needs

At MOV'EO, one of our top priorities is to **offer our members on-going support**. Our goal is to turn your **R&D projects** into **services and products that have a competitive edge**.

FOUR COMPLEMENTARY CROSS-FUNCTIONAL TOOLS

MOV'EO SME

Helping SMEs to develop their innovation strategy

MOV'EO International

Strengthening the international competitiveness of companies and regions

MOV'EO Skills

Developing the skills needed for tomorrow and meeting the demands of our members today

MOV'EO Business Intelligence

Promoting key BI principles: data confidentiality, information security, and oversight to guarantee quality exchanges and projects

TWO SERVICE OFFERINGS TO ENSURE YOUR SUCCESS

The cluster proposes two fee-based service offerings to speed up your time-to-market.

MOV'EO Development

Customised services to guide you through each stage of your project: technological resources, business fundraising, international export, European funding, project engineering, communications, and intellectual property

MOV'EO Groups

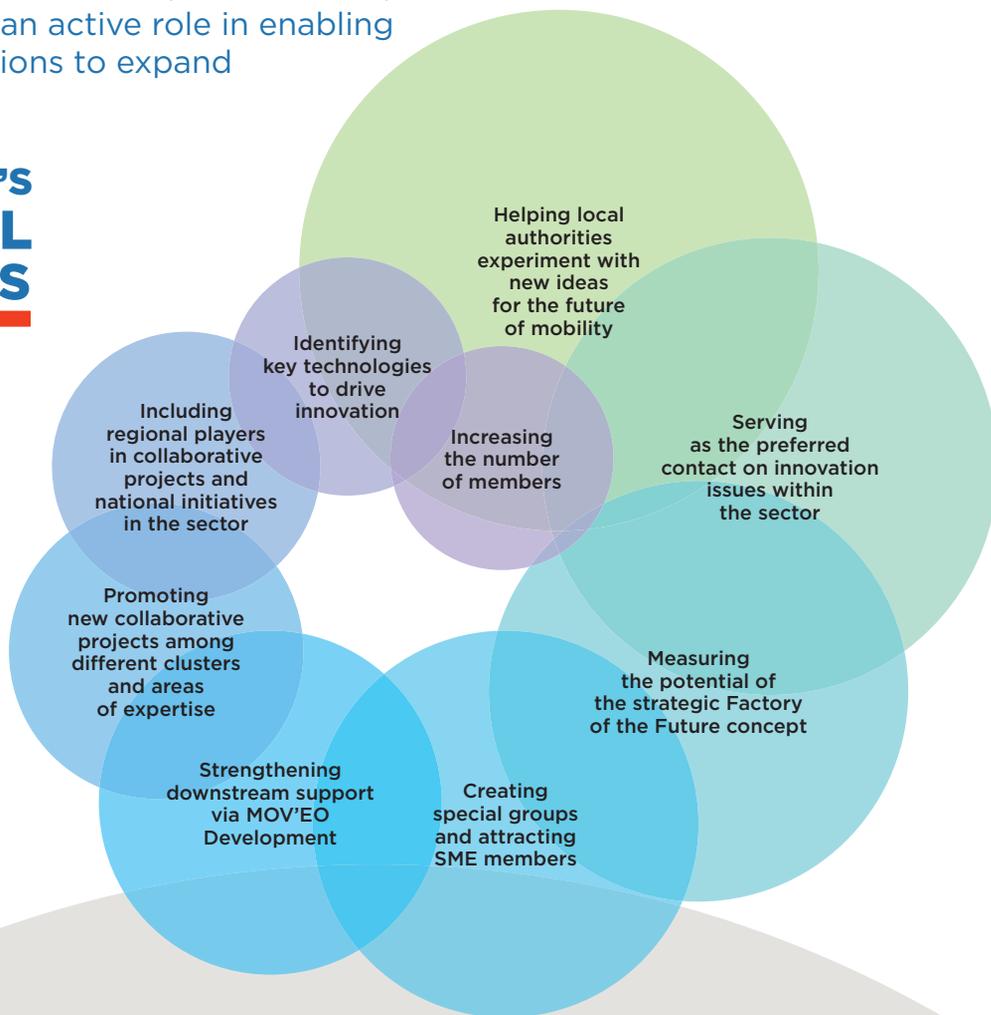

Creating special groups of SMEs, admitted on the basis of their skills, to jointly identify sources of additional revenue

Strong regional ties

Based in Lower Normandy (Basse-Normandie), Upper Normandy (Haute-Normandie) and the Greater Paris Area (Île-de-France), the cluster plays an active role in enabling these French regions to expand their reach.

THE CLUSTER'S REGIONAL PRIORITIES

mov'eo
Imagine mobility

- **MOV'EO Haute-Normandie Cluster head office**
Technopôle du Madrillet
50, rue Ettore Bugatti
76800 St Etienne du Rouvray
France
