RENY STYLE

Reny Style Ruse is a Bulgarian producer of designer women's fashion. The company started in 1997. It sells on the Bulgarian market and in the neighboring countries - Romania, Serbia, Greece, looking to expand their network of retailers.

The materials used most often are soft cotton fabrics containing elastane to make the garment comfortable.

According to the fashion trends they combine in their collections the most up-to-date fabrics such as denim, waxed cotton, synthetic leather, neoprene and leotard.

The brand has built their own professional washing system, in which they process most of the production and thus has been able to completely close the production cycle.
